Editorial Policy and Publication Ethics

The DARCH 2022 Conference Proceedings are all in English and contain the double blinded peer reviewed papers presented at the DARCH 2022 Conference. The conference proceedings published only online on OCERINT's digital library and have free access.

The DARCH 2022 International Scientific Committee is composed of lecturers and researchers from many different countries. During the review process, the following points were evaluated: information content, relevance to the educational field, general structure, clarity of contents, originality of the research, appropriate citations to the literature.

The papers published in these proceedings reflect the views only of the authors. The publisher cannot be held responsible for the validity or use of the information therein contained.

The OCERINT publishing aims to publish conference proceedings that contain original research articles of high quality meeting the expected ethical standards. The publication guidelines are provided for authors who submit articles to OCERINT conferences in order to maintain high ethical standards.

OCERINT conference shall guarantee the high technical and professional quality of the publications and that good practices and ethical standards are maintained. If unethical behaviors are identified, an investigation will be initiated and pertinent actions will be taken.

More information about our "**Ethical Principles and Publication Policy**" can be available here: <https://www.ocerints.org/index.php/contact/14-sample-data-articles/128-ethical-principles>

PREFACE

Dear Distinguished Delegates and Guests,

On behalf of the Local Organizing Committee I am pleased to welcome our distinguished delegates and guests to the DARCH 2022 - 2nd International Conference on Architecture and Design held during 21-22 March, 2022.

DARCH 2022 is organized and sponsored by *International Organization Center of Academic Research (OCERINT)*.

The conference provides the ideal opportunity to bring together professors, researchers and postgraduate students of diverse disciplines, discuss new issues, and discover the most recent development, research and trends in architecture and design.

Provide international scientific forum for exchange of new ideas in a number of multidisciplinary fields of architecture and design that interact in-depth through discussions with the colleagues from around the world. Both inward research -core areas of architecture- and outward research -multi-disciplinary and inter-disciplinary on architecture and design- will be covered during the event.

The conference program is extremely rich, featuring high-impact presentations. The program has been structured to favor interactions among attendees coming from many diverse horizons, scientifically, geographically, from academia.

DARCH 2022 has welcomed delegates from nearly 10 different countries. This multicultural experience gives us the opportunity to meet new partners and learn from each other in an international and friendly atmosphere.

DARCH 2022 more than just a place to present papers; it is a place to meet and welcome new people and colleagues. It is a place to interact and discuss new ideas and new innovations. In short, it is a place to build not only a community of scholars but a community of friends.

This proceeding records the fully refereed papers presented at the conference. The main conference themes and sessions are architecture and design.

The conference has solicited and gathered academic research submissions related to all aspects of the main conference themes.

I would like to thank the organization staff, program chairs, and the members of the program committee for their work.

Thank you very much for participating in DARCH 2022 and for contributing to this inspiring international forum.

I hope you enjoy your time with us!

With my warmest regards,

Prof. Dr. Ferit USLU

Editor of DARCH 2022
